

project

DIGITAL MEDIA PARK, DUNDEE

client

Raynesway Construction

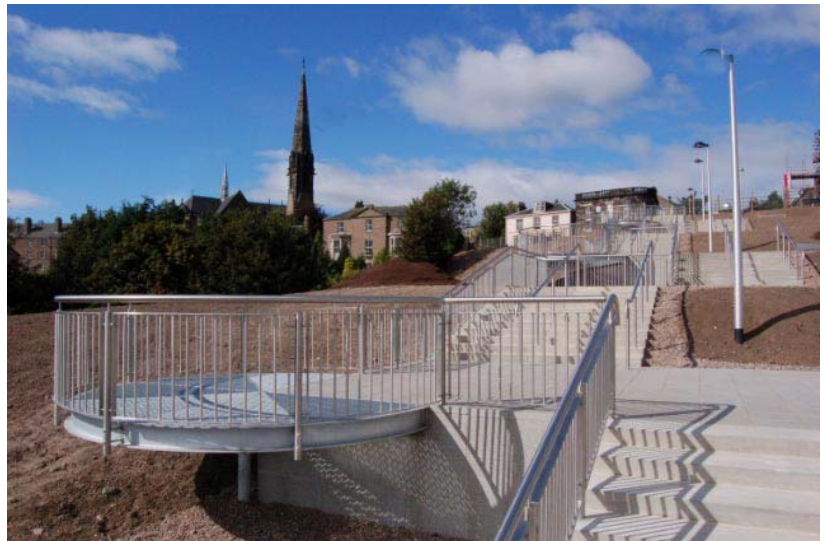

Raynesway Construction

A G Brown Ltd fabricated and fitted all stainless steel on this project.

Dundee's reputation as an international centre of excellence for creative media was further elevated with the launch of Seabraes Yards, the city's Creative Media District.

Occupying the 20 acre site of the former railway goods yard in Dundee City Centre, Seabraes Yards (formerly known as Dundee Digital Media Park) is one of Scotland's most high profile and important investment projects.

The ambitious venture is the result of close collaboration between site owners, Scottish Enterprise Tayside, Europe and private and public sector organisations, and is projected to result in £50m being injected into the area over the next 10 years
